13	REYNALD DUSSOSSOY			72				72
14	Alan Marquis			83				83
15	Olivier Mackowiak							0
15	Skurzynski Jerome							0
15	Romain Warembourg							0

Rules:

The competition takes place on the 6 courses from March 1st to September 30th, 2024:

Bully-les-Mines (18 holes)

Harnes (18 holes)

Hersin (2x9 holes)

Liévin (18 holes)

Marles-les-Mines (2x9 holes)

Wingles (18 holes) (!! On hold at the beginning of the competition, we will notify you as soon as it is playable !!)

You can play the courses whenever you want while following these rules:

Always inform the organizers before starting a "Tour des Mines" and/or any of the courses.

You can complete the Tour des Mines over the number of days you prefer and in the order you prefer.

To play a course, you need a minimum of a group of 3 players, including at least two "pdga" players who will ensure compliance with disc golf rules.

Players with a rating below 850 can compete in "best shot" doubles; they will use a common nickname and count as a single player (thus requiring a minimum of 4 players to complete a course). They must then play all the courses in this manner.

Unlicensed players are accepted and considered to have a rating below 850 (except for former licensees, of course!).

A player with a rating below 850 can participate in double best shot and simultaneously start a single round (but not in the same round).

You can replay the entire Tour des Mines as many times as you want, but only the latest scores will be considered.

You cannot replay a single course; you must replay the entire Tour.

Before starting a course, you must send a photo of the group to the organizers.

At the end of each course, you must send the scorecard to the organizers.

Photos and scorecards can be posted on the event's Facebook page.

For OBs (Out of Bounds) and Mandos, follow what is explained on the teesigns.

For disputed OBs, the group will decide if the disc is truly OUT or not.

In case of doubt about a rule, a course, a missing teesign... inform the organizers as soon as possible.

If a course has no teesigns (Wingles), it is considered that there are no OBs, except when discs pass through fences, land on the road, or fall into the water.

Remember that this Tour is based on trust, and scores must accurately reflect the performances on each course.

Consider yourself in competition, not training, when participating in the Tour des Mines!

No second throws, no "it's okay, I won't putt, I'm right next to it"... You are in competition mode!
