

ATCELTS - ŪSIŅI - UFOGOLF Saules Kalendārs

UFOGOLF Solar Calendar Events!

The sign of Ūsiņš denotes the horses of the oldest god of light, Ūsiņš, the leaders of the Sun. Ūsiņš is related to spring, the beginning of the new year life of the peasant and his concern about horses. Ūsiņš is the god of light and spring, a symbol of fertility, a guardian of horses and bees. It is one of the few Latvian deities whose historical sources give more or less true testimony. With the day of Ūsiņš, summer begins, Ūsiņš brings green grass to the fields and trees with green leaves, so for the first time, boys are driving horses to Ūsiņš.

If you have never participated, then this is the place to be, because those who know how will play disc golf better and better.
